---

### Projects & Publications

#### I-R

Front-end web development | March 2025 – May 2025

-Developed **I-R (PDF Inverter)**, a browser-based tool that enables users to efficiently process and invert PDF files, ensuring accessibility and usability.

-Designed and implemented a custom front-end interface with a clean and responsive UI for seamless user interaction.

-Optimized performance for scalability and security, improving processing speed and reliability.

-Published the project live: [from-tanim.github.io/i-r](https://from-tanim.github.io/i-r) |
